Technical Parameters:

Model	600
Polishing pot diameter (mm)	600
Rotating speed (rpm)	32
Main motor power (kw)	0.75
Air bower power (w)	60
Heating power (w)	500×2
Capacity (kg/time)	15
Outside dimensions (mm)	700*700*1100
Weight (kg)	120

Function:

The chocolate panning machine is used to polish chocolate in various shape such as round, oblate, oval, melon seeds and columnar shape. Specially, the columnar chocolate after packed by colorized aluminized foil can be also polished in this machine, after polishing, the foil will be wrapped and smoothly on the products and the shape of the package will be distinct .

Packaging & Delivery:

1. The machine will be packed in a wooden case, avoiding unexpected damage.
2. The machine will be shipped from Shanghai port.

Service:

1. Along with the separate machines, our company also has an ability to deliver integrated solutions for the manufacture of the chocolate product.

2. Engineers are available for traveling to the customer's site overseas, in order to launch and maintain machines, as well as to provide a team training at the customer's location.
