Technical Date:

Project	Mumerical
Capacity(high□	150-300
Mould plates(set)	2
The best molding temperature (℃)	-24□-22
The lowest refrigeration temperature(℃)	-30□-28
The cooling tunnel temperature	5-8
The largeest molding rotate speed (r/min)	1.5
The refrigeration model	20p
Total refrigeration power□kw□	17.13
Main motor power (kw)	5.914
The dischange tank tank power (kw)	8.75
The maximum capacity of the storage tank (L□	300
outside dimensions (mm)	10803×2020×2731

chocolate bean processing line

Product Description:

The QK-‖chocolate bean production line is my company introduction of foreign technology developed equipment. The equipment is closed for production and avoids the problems of low sanitation and low standard of sanitation. In addition, it is subject to environmental temperature
Humidity is little influence, it is the ideal equipment of broad chocolate production enterprise. The utility model has the advantages of low energy consumption, large output, good taste of the finished product, high safety, simple and convenient operation and high automation.

Packaging & Delivery:

1. The machine will be packed in a wooden case, avoiding unexpected damage.
2. The machine will be shipped from Shanghai port.

Service:

1. Along with the separate machines, our company also has an ability to deliver integrated solutions for the manufacture of the chocolate product.

2. Engineers are available for traveling to the customer's site overseas, in order to launch and maintain machines, as well as to provide a team training at the customer's location.
