

Table Specifications:

Capacity	500L
Motor Power (kW)	37
Motor Speed (rpm)	6
Motor Voltage (V)	750
Motor Current (A)	500
Motor Frequency (Hz)	18-22
Motor Type	4100
Motor Dimensions (mm)	900 * 1800 * 2800

Notes:

The machine is designed for industrial use. It is suitable for processing various types of materials. The machine is equipped with a safety system to prevent accidents. The machine is easy to operate and maintain. The machine is made of high-quality materials and is durable. The machine is available in different models and specifications. The machine is suitable for use in various industries. The machine is a reliable and efficient solution for your needs.

Table Specifications & Dimensions:

1. The machine is designed for industrial use.
2. The machine is suitable for processing various types of materials.

Notes:

The machine is designed for industrial use. It is suitable for processing various types of materials. The machine is equipped with a safety system to prevent accidents. The machine is easy to operate and maintain. The machine is made of high-quality materials and is durable. The machine is available in different models and specifications. The machine is suitable for use in various industries. The machine is a reliable and efficient solution for your needs.
