

Table Specifications:

Model	Q111
Roll / Sheet Capacity	0-8-25
Roll Diameter Capacity	21
Roll / Sheet Capacity (Maximum Roll Diameter)	21800
Roll Capacity (Roll Diameter)	280 * 200 * 30
Roll Capacity (Roll Diameter)	270
Roll Capacity	4800
Roll Capacity (Roll Diameter)	17010 * 1010 * 1330

Features:

This is a high-quality automatic machine designed for industrial use. It features a robust construction and advanced automation technology. The machine is capable of processing a wide range of materials and thicknesses. Key features include:

- Automatic operation for consistent results.
- Adjustable settings for different material types.
- High precision and accuracy in processing.
- Easy-to-use control panel.
- Durable and long-lasting components.

Applications:
