

Table Description:

Machine Model	Q111
Motor / Voltage (kW)	0.8-2.5
Motor Speed (RPM)	21
Motor / Voltage (kW) (Optional)	21800
Motor Speed (RPM)	280 * 200 * 30
Motor Speed (RPM)	270
Motor Speed (RPM)	4800
Motor Speed (RPM)	17010 * 1010 * 1330

Features:

This machine is designed for automatic operation and is suitable for processing various materials. It features a robust construction and a user-friendly interface. The machine is equipped with advanced sensors and control systems for precise operation. The automatic function allows for continuous production with minimal operator intervention. The machine is designed to be compact and efficient, making it ideal for small to medium-sized production environments. The machine is built to last, ensuring long-term reliability and performance. The machine is designed to be easy to maintain and clean, reducing downtime and ensuring high hygiene standards.
