

Technical Specifications:

Capacity	1000
Capacity (kg / hour)	1000
Capacity (kg / hour) (max)	≤25
Capacity roasting (kg) (max)	84
Capacity (kg)	8-16
Capacity (kg) (max)	1 1
Capacity (kg) (max)	7.5
Capacity (kg)	1250
Capacity (kg)	* 1000 * 2350 1000

Technical Specifications:

The machine is designed to process coffee beans into a fine powder. It features a hopper for beans, a grinding mechanism, and a collection tray for the milled coffee. The machine is compact and easy to use, making it suitable for small-scale coffee processing.

Technical Specifications & amp; Features:

1. The machine is designed to process coffee beans into a fine powder.
2. The machine is compact and easy to use.
