

Material Specification:

Material	Q112
Specification (GB / JIS)	0.8 ~ 1.5
Form (Sheet / Plate)	23
Thickness (mm)	21800
Dimensions (mm)	280 * 200 * 30
Weight (kg)	380
Price (USD)	5800
Quantity (kg)	17060 * 1005 * 1870

Notes:

The material must be inspected before use. It must be stored in a dry place, away from moisture and corrosion. The material is supplied in the form of a sheet, and the dimensions are subject to change without notice. The material is supplied in the form of a sheet, and the dimensions are subject to change without notice. demoulding, bending, etc., should be followed. The material is supplied in the form of a sheet, and the dimensions are subject to change without notice.

The material is supplied in the form of a sheet, and the dimensions are subject to change without notice. The material is supplied in the form of a sheet, and the dimensions are subject to change without notice. The material is supplied in the form of a sheet, and the dimensions are subject to change without notice.

Material Properties & Characteristics:

1. The material has a high tensile strength and is suitable for use in high-stress applications. The material has a high tensile strength and is suitable for use in high-stress applications.
2. The material has a low coefficient of thermal expansion and is suitable for use in applications where dimensional stability is required. The material has a low coefficient of thermal expansion and is suitable for use in applications where dimensional stability is required.

Material Dimensions:

1. The material is supplied in the form of a sheet, and the dimensions are subject to change without notice. The material is supplied in the form of a sheet, and the dimensions are subject to change without notice. The material is supplied in the form of a sheet, and the dimensions are subject to change without notice.

2. The material is supplied in the form of a sheet, and the dimensions are subject to change without notice. The material is supplied in the form of a sheet, and the dimensions are subject to change without notice. The material is supplied in the form of a sheet, and the dimensions are subject to change without notice.

Material Usage:

□□□□□ □□□□□□□□:

## 2 Chocolates

*If you need help or require chocolate machinery or start up factories, let me know contact us, we can steer you in the right direction.*
