Table 1: Summary of the proposed design parameters

Table 1: Summary of the proposed design parameters. The table provides a summary of the proposed design parameters for the project. The parameters are listed in the table, and the values are provided in the adjacent column. The parameters include the total volume, the number of units, the number of units per unit, the number of units per unit, the number of units per unit, the number of units per unit, and the number of units per unit.
