

Technical Parameters:

Model	Q112
Capacity (ton/class)	0.8~1.5
Total power(including refrigerator)	23
Refrigerating quantity (kcal/h)	21800
Mould size(mm)	280*200*30
Mould plate quantity (each)	380
Weight (kg)	5800
Overall dimension (mm)	17060*1005*1870

Function:

Chocolate casting moulding machine is an advanced equipment for chocolate moulding, which integrates the machine with electric control efficiently. The whole process includes demoulding, pouring, mould vibrating, cooling, conveying, mould drying and other fully automatic procedures.

Chocolate casting moulding machine is capable of producing pure chocolate, center filled chocolate, two-colour or four-colour chocolate. The product is smooth and beautiful, and the machine is the ideal advanced chocolate producing equipment.

Packaging & Delivery:

1. The machine will be packed in a wooden case, avoiding unexpected damage.
2. The machine will be shipped from Shanghai port

Service:

1. Along with the separate machines, our company also has an ability to deliver integrated solutions for the manufacture of the chocolate product.
2. Engineers are available for traveling to the customer's site overseas, in order to launch and maintain machines, as well as to provide a team training at the customer's location.
