

Q111

Model	Q111
Capacity (kg/h)	0.8-2.5
Power (kw)	21
Throughput (kg)	21800
Dimensions (mm)	280 * 200 * 30
Number of Channels	270
Weight (kg)	4800
Overall Size (mm)	17010 * 1010 * 1330

Features

The machine is fully automatic, designed for high efficiency and consistent product quality. It features a robust stainless steel construction for hygiene and durability. The automatic control system ensures precise dosing and mixing of ingredients, minimizing waste and maximizing throughput.
